

# streamsync

One Box, Infinite Possibilities

## Key Features:

### Hybrid Meeting Excellence:

- Ensure in-room and remote participants stay perfectly in sync. StreamSync bridges locations with seamless two-way video and audio, creating a natural, collaborative meeting flow.

### Effortless BYOD Presentations:

- Wirelessly share your screen from any laptop, tablet, or phone. StreamSync makes casting fast and cable-free—no delays, no compatibility issues.

### Interactive Collaboration:

- Draw, highlight, and annotate directly on shared screens or video. Turn routine meetings into dynamic, real-time discussions.

### Simplified AV Management:

- Replace cluttered AV racks with one streamlined system. Manage all inputs and outputs from a single interface—fully compatible with Crestron and Q-SYS.

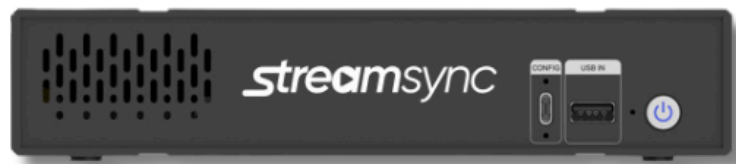

### Broadcast-Quality AV:

- Support up to 7 NDI® cameras and 3 HDMI inputs with full HD video and 16-channel Dante® audio. Every voice and detail comes through clearly.

### Optional Encoders & Decoders:

- Built-in network merging and stream routing means fewer devices and lower costs—with no loss in performance.

## Optimizing AV for Corporate & Boardroom Collaboration

## What is StreamSync?

StreamSync is a high-performance A/V matrix built for modern workplaces. It simplifies meetings, presentations, and video conferencing by combining multiple video and audio sources into a single, seamless stream—no encoders or decoders required. With advanced capabilities like content mapping, annotation, and Dante® audio integration, StreamSync ensures every participant—whether in the room or remote—experiences high-quality communication and engagement.

### • **Cost-Effective AV Solution**

- Fewer devices, reduced complexity
- Lower hardware and maintenance costs
- Minimal setup time

### • **Easy for IT Teams**

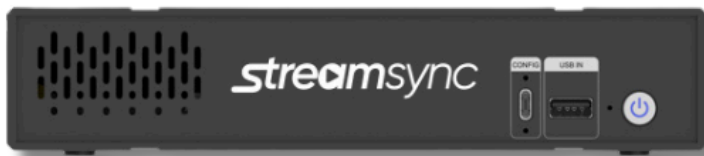

- Fast deployment
- Integrates with existing infrastructure
- Simplifies remote and hybrid meeting control

### • **Future-Proof Technology**

- Supports Wi-Fi casting
- USB-C configuration for evolving AV needs
- Designed to scale with corporate tech growth

## StreamSync in Action:

Today's meetings demand flexibility, speed, and clarity. With StreamSync, boardroom tech becomes easy to manage and more impactful—whether you're streaming a global meeting, switching between departments, or presenting to stakeholders around the world.

## Specifications:

### Video Input/Output:

- 7× NDI® | HX inputs at 1080p60 resolution, 6× NDI® outputs
- 3× HDMI® inputs, 2× HDMI® outputs
- 1× USB® Type-C port for multi-view or individual video feeds

### Audio Management:

- Dante® stream matrix with 16-channel (in/out) 24-bit audio
- Supports audio to NDI® stream mapping, perfect for integrating audio systems with microphones and video streams

### Advanced Matrix Support:

- Supports 12×12 video matrix and 16×12 input / 22×16 output audio matrix channels, ensuring each participant's audio and video are routed where needed, in the highest quality possible

### Flexible Connectivity:

- Integration with Crestron/QSYS systems for advanced control and automation
- HTTP API for remote device status updates and control
